

Memorandum on Individual fundraising Accounts

August 28, 2013

Individual school fundraising accounts are only to be used for school expenses, specifically the activity or sport program for which the funds were raised.

Funds raised may not be used for any outside purchases such as private lessons, personal equipment, or attendance at performances or sporting events on personal time.

Reimbursement requests should be submitted as promptly as possible.

If all fundraising funds due to the student are not used, the balance becomes a donation to that specific program.
